

ANNOUNCING THE CLEAR2THERE FLEET AND ASSET MANAGEMENT SOLUTION

Clear2there announces the launch of the Clear2there fleet and asset tracking system utilizing GPS technology. Affordable Fleet and Asset GPS tracking products from Clear2there, allow users to effortlessly in real-time, locate their Fleet, Commercial Vehicles, Trailers, Equipment and other assets across our North American data network. Our industry defining equipment, world class infrastructure and award winning customer service, gives you the reliability you deserve while providing a comprehensive GPS tracking solution that is easy to use and affordable to own.

Our easy-to-use web based user interface is a convenient way to continuously and in real time monitor your fleets location, speed, stop times and activities. It also offers a host of other intuitive features such as robust daily, weekly and monthly reporting and dispatching functions all designed to increase efficiencies and help reduce costs by reducing fuel consumption, maintenance expense, and emissions.

Clear2there further combines our GPS tracking to be integrated to the Viewbiquity software offering, an open source cloud based solution. Fleet management and asset tracking can be integrated with other applications, such as video surveillance, re Fridgeration control, access control and numerous other devices. Request a demo on the Clear2there Viewbiquity, fleet management and asset tracking solutions.

The Clear2there Fleet and Asset Tracking Service Plan

Along with a complete line of GPS devices that attach to the vehicle or asset, we offer a total solution plan of services, that is provided by the leading nationwide cellular and GPS service providers.

- Use GPS technology to view all your vehicles at once and check where they have been
- Receive detailed stop/move mileage/time reports weekly or monthly
- Detailed maps or satellite images, anywhere in USA and Canada
- Intelligent dispatch capability - use GPS fleet tracking to find your closest vehicle
- Instant Locates to know where a vehicle is in between updates
- Disable the starter and prevent a vehicle from being driven
- Unlock your vehicles' doors from the Web or any telephone

Using your PC, within seconds you can know:

- Their location and routes, by detailed color map, satellite image and address
- Online Reports of Mileage, Stops and Moves
- The vehicles closest to your customer
- The details of the continuous activity for any time during the past 6 months
- Any instances that the vehicle has been speeding (you set the limits)
- Any instances that the vehicle enters or exits any of up to 3 of your preset boundaries

In addition, the Clear2there GPS fleet and asset tracking service includes:

- Instant alerts to any number of cellphones and/or emails when any speeding or boundary violation occurs
- Support from the Clear2there Customer Service Center
