

Clear2there President Craig Steen to Speak About Security at ITEXPO West September 15th

Panel Discussion Examines Security Needs in the Cloud Era

September 8, 2011 Oklahoma City, OK — Clear2there, Inc. (C2T), a leading provider of video surveillance and communications solutions for enterprises, has announced that Craig Steen, the company's president, will speak at the ITEXPO West 2011, located at the Austin Convention Center in Austin, Texas. Participating in the session "Comprehensive Security & Compliance for Fast-Moving Businesses", scheduled for Thursday, September 15th at 10 a.m., Mr. Steen will provide a view into the profound benefits available by the integration of communications, video, and other surveillance and monitoring technologies in a single cloud-based platform.

"As a provider of cloud-based business communications and process management, Clear2there works with companies on a regular basis to ensure both the physical security and monitoring of their facilities, and the protection of their sensitive information," said Mr. Steen. "Such sensitive information is often the most valuable asset belonging to a company, and we have seen a lot of interest from the marketplace in ensuring the security of those assets."

"Clear2there brings a unique perspective to this critical discussion regarding the real-world risks businesses must acknowledge in the cloud era," said Rich Tehrani, chief executive officer of Technology Marketing Corporation, producer of IT Expo West. "We anticipate that this panel will engender lively discussion between attendees about what security really means in the cloud."
