

Clear2there Teams up with M2M Certified to Offer Viewbiquity M2M Integrated Fleet Management and GPS Tracking Solutions

Oklahoma City, OK August 17, 2011—Clear2there, a leading provider of advanced M2M and video surveillance solutions for service providers and enterprises, has announced that M2M Certified LLC, of La Jolla, California, a provider of fleet management systems that utilize GPS tracking services, will offer Viewbiquity’s VCI (Viewbiquity Cloud Interface) M2M (machine-to-machine) platform to its customers. Clear2there is the master distributor for Viewbiquity products in North America, and will also offer the combined fleet management and M2M solution through its established distribution channels.

“As we expand our offerings in the M2M space, we recognize that fleet management and GPS tracking is a key application for small, medium and large businesses that rely on vehicle fleets,” said Greg Mantia, chief executive officer for Clear2there. The VCI solution delivers a superior solution that helps address these business needs.” A hybrid solution that combines the power, flexibility and efficiency of cloud-based technology with low-cost edge devices, VCI is a secure, cost-effective M2M platform that incorporates command and control capabilities, two-way VoIP communications, video surveillance, sensor monitoring, and geofencing, as well as supporting both automated and manual responses. VCI is delivered as a monthly service that requires no activation costs, and can be implemented through low-cost edge devices such as laptops and netbooks. VCI supports both Java Script and HTTP APIs, giving legions of developers a low-barrier, solid and sustainable platform on which to write new applications.

“Clear2there and Viewbiquity offer a very compelling product portfolio that will help our customers improve productivity and efficiency, as well as integrate many exciting new capabilities like video surveillance and M2M management,” said Kelly Venturini, CEO M2M Certified. “We fully expect that our ability to deliver VCI will translate into enormous productivity and efficiency benefits for the many customers we serve.”
